EXPERIENCE

Intern — Quest Innovative Solutions Pvt Ltd (Present)

CERTIFICATION

- Completed Advance Driver Assistant System - Level 1' offered by ReynLab-Internship
- Hands-on Workshop on Machine Learning Using Python - Workshop
- Web Development From Intrainz – Internship

ACADEMIC PROJECT

EHMS: Hospital Management System(Mini Project) : Developed a comprehensive hospital management system with an integrated web-based application and multi-department dashboards. Implemented modules for patient registration, appointment scheduling, billing, and inventory management using html ,css , php, javaScript ,MySQL. Ensured data security and compliance with healthcare regulations by incorporating user authentication and role-based access controls.

Blueshark : Designed and implemented a Bluetooth analysis system capable of detecting nearby devices and assessing their security vulnerabilities. Utilized ubertooth one , python flask, bluetooth dongle to capture and analyze Bluetooth signals, identifying potential security risks such as unauthorized access or data interception.It also included html,css, javaScript for developing the front end. The project also included developing a user interface for monitoring real-time Bluetooth activity and generating vulnerability reports.

SKILLS

Language: Python,Django

DBMS: SQL, MySQL

Frontend: HTML, CSS, JavaScript,Bootstrap

IDEs & APIs : Visual Studio Code,Eclipse,Rest API
